

55" OUTDOOR KIOSK

Designed for digital signage application

KOFP-SAM Series

The KOFP-SAM outdoor portrait kiosk is designed for Samsung's 55" OHF displays. This kiosk has options to support a camera, media player and router as well as speakers. This kiosk can also come with touch using an IR touch overlay. The display brightness is 3000 nits and boasts an operating temperature of -40c to 50c.

The applications for this kiosk are endless. This kiosk can be used in outdoor mall applications, street kiosks, QSR, hospitality, casino's, hotels and the list goes on.

Constructed using 14 GA. and 12 GA high impact steel and a shatter resistant polycarbonate display that ensures longevity and years of use. This kiosk can be painted any color and customized to include printed decals and kiosk wraps.
