

# Swivel Arm SBC-CA-30

# 360 lb WLL

Swivel Arm Rotating Suspension Arm

BeamWare®

Pan & Tilt from I-Beam

Mount or rig loudspeakers from this rotating arm and get a full 360 degrees of horizontal aiming from a selected Beam Clamp. This load-rated Swivel Arm pairs with a variety of steel and wood beam clamps. It's mounting pattern mates with our AJ Adjustable Series U-Brackets. Eye Bolts are included for rigging. For rigging options, choose the size of Swivel Arm based on the selected speaker size and orientation. Vertical orientations require Swivel Arms 2-4" longer than the width of the speaker. Horizontal orientations require arms 2-4" longer than the height of the speaker.

Mounting options require that the Swivel Arm is 2-4" less than the speaker dimension.
