

Suspension Wire Rope Slings

840 lb - 2880 lb. WLL

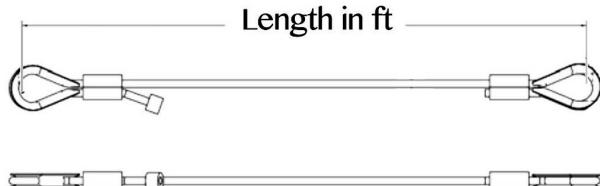

7X19 Galvanized Aircraft Cable

WIRE ROPES

Thimbled Loop Ends

Adaptive Technologies offers a variety of standard length wire rope slings and in a variety of diameters to accommodate various working load requirements. They are produced domestically and load rated to assure safe and predictable installations. Wire rope assemblies are the most economical way to span and bridle from overhead structures and, because they are produced in the factory, their length tolerance accuracy and integrity far exceeds those produced in the field.

Length measure inside loop to loop

SPECIFICATIONS:

- **Material:** Aircraft Cable
- **Style:** 7X19 steel wire rope
- **Color:** See chart
- **WLL Safety:** 5:1

STANDARD FEATURES:

- Domestically produced
- Precision Lengths

OPTIONAL ACCESSORIES:

- See Turnbuckle data sheet
- See Shackle data sheet
- See Eye Bolt data sheet

ALWAYS INSTALL SAFETY CABLES

WARNING: Mounting and/or suspension of audio and video equipment requires experienced professionals. Improperly installed loudspeakers can result in property damage, personal injury and/or liability to the installing contractor.
