ALL WEATHER BEAM CLAMP

BEAM-WARE

3/4 TON BEAM CLAMP

Creating suitable overhead structural suspension points for rigging systems can be difficult so using the building's own Structural Beams can provide more options for the installer. Standard, pre-engineered beam clamps attach to the building's beam structure and offer an easy, safe and predictable method of suspension. This All-Weather Beam Clamp adjusts to both small and medium flanged beams and is designed for indoor and outdoor applications.

KEY FEATURES:

- ▶ Threaded Rod provides infinite adjustments
- ▶ Single hang point centrally located
- ▶ Galvanized & Stainless components allow for outdoor use
- ▶ Accommodates beam flanges from 5-16" wide

OPTIONAL ACCESSORIES:

- ▶ See Rigging Components Datasheet
- ▶ See Wire Rope Datasheet
