

FP-PD5200-3X1

(600 lb. WLL)

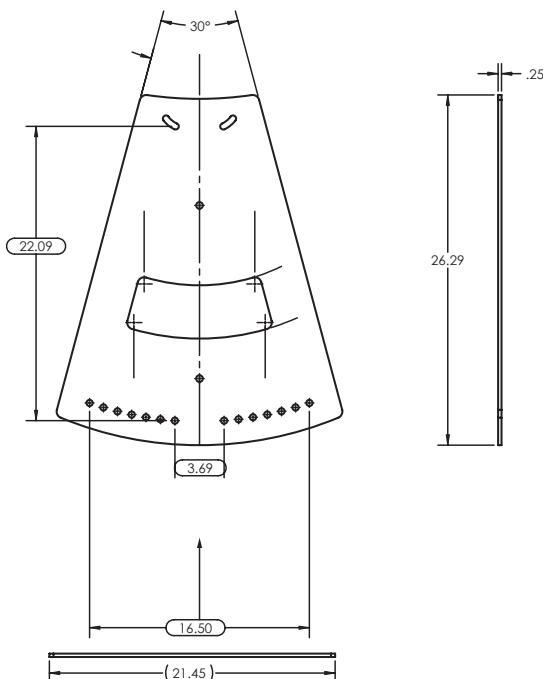

CLUSTER PACK PLANAR ARRAY KIT

FASPAC™

Clustering and flying PD series loudspeakers is easy, safe and very predictable. This planar array suspension kit joins three PD5200 or PD5212 cabinets together to be flown as one, tight-packed for near field placement or splayed out for further distances from the audience.

Two top joiner plates and two bottom joiner plates come in the kit, as well as load rated eyebolts that pass through the front plates and anchoring into the cabinet's rigging points. High strength bolts are provided to secure the top and bottom joiner plates.

SPECIFICATIONS:

Material: Structural Steel

Finish: Powder Coat

Color: Black
