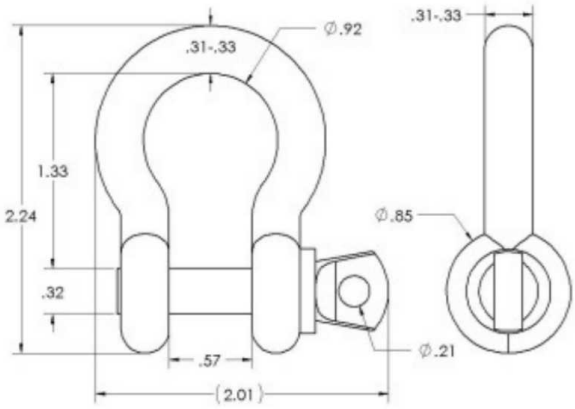
1500 lb. WLL

5/16” SHACKLE - SCREW PIN ANCHOR

SHACKLE

The screw pin version of shackle is ideal for the joining of two closedend items together, such as wire rope assemblies, turnbuckles and eyebolts. The small hole in its pin offers a back up safety feature by securing a wire or cable tie through the holes and around the body of the shackle. This prevents the pin from loosening through vibration and is known as “mousing” the shackle. Shackles are rated for overhead suspensions because of this redundant locking feature and the radius portion of their body structurally accommodates three way bridles.



SPECIFICATIONS:

Materials: Steel Aircraft Cable 7X19
Diameter: 5/16”
Color: Silver
Design Factor: 6:1 ratio
WLL: 1500 lb / 682 Kg

MATES WITH:

EB-025, EB-315, EB-500, EN-375
EN-500, TB-315, TB-375, TB-500

MADE IN USA

Rated for indoor use.
