TB-025

500 lb WLL

1/4” TURNBUCKLE - EYE TO EYE

TURNBUCKLES

Leveler / Tensioner

Turnbuckles serve as a load-rated tensioning and leveling device. For tensioning, one end always comes with a reversed thread so that when it is placed into service between two objects in its fully extended position, the housing may be rotated back to shorten the overall component, pulling the threaded arms in and putting additional tension into the system, such as between two anchored wire rope assemblies. Turnbuckles are also employed as leveling devices to bring overhead truss and grids into a level attitude. Its eye fittings accommodate shackles, quick links, etc.

STANDARD FEATURES:

- Outdoor rated - non marine
- Forged eyelets
- Up to 4“ of adjustment

OPTIONAL ACCESSORIES:

- See Shackle datasheet
- See Wire Rope datasheet
- See Beam Clamp datasheet
- See Rigging Beam datasheet
- See GridLink® datasheet

SPECIFICATIONS:

Material: Forged Steel
Finish: Galvanized
WLL: 500 lb / 227 Kg
Design Factor: 5:1

PACKAGED CONTENTS:

1 pc. Turnbuckle eye to eye

MADE IN USA

Rated for outdoor use.
